### The State of New Hampshire

---

To the inhabitants of the Town of Plymouth, in the County of Grafton, in said State, qualified to vote in Town Affairs.

You are hereby notified to meet at the Town Hall in said Plymouth, on Tuesday, the eleventh day of March next, at nine thirty of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

3. To see what sum of money the town will vote to raise or appropriate, in addition to that required by law, for the support and maintenance of the Free Public Library.

4. To raise such sums of money as may be necessary for the repair of highways.

5. To see what sum of money the town will vote to raise or appropriate, in addition to that required by an Act of the Legislature approved February 24, 1905, to be used for the permanent improvement of its main highways, such improvement to be made under the advice of the State Engineer.

6. To see what sum of money the town will vote to raise or appropriate to pay firemen.

7. To see what sum of money the town will vote

to raise or appropriate for the decoration of soldiers' graves.

8. To see if the town will vote to authorize the selectmen to borrow money to pay the debts of the town and give notes therefor, countersigned by the Town Treasurer, the said notes to be exempt from taxation.

9. To choose a Library Trustee for a term of three years.

10. To see what sum of money the town will vote to raise or appropriate to pay Keniston Band for open air concerts during the summer of 1919.

11. To see what action the town will take in regard to oiling the streets.

12. To see what sum of money the town will vote to raise for sidewalks.

13. To see what sum of money the town will raise for the repair of bridges.

14. To choose a Trustee for a term of three years to have the care of trust property.

15. To see what sum of money the town will vote to raise or appropriate to help control the white pine blister in the town of Plymouth.

16. To see if the town will vote to cancel the contract made between Mrs. Calista Clark and the town of Plymouth in regard to a sum of money that she deposited with the town, the income of which was to be used for the care of the H. Clark lot in Riverside cemetery, and to pay her back the amount not expended.

17. To see what sum of money the town will vote to raise or appropriate towards observing Old Home Week.

18. To see what action the town will take in regard to purchasing a new hearse.

19. To see if the town will vote to erect a monument to the memory of the soldiers from Plymouth who served their country in the Civil, the Spanish-American war and the World war 1914-1918, and raise or appropriate money for that purpose, appoint any committees and take any other action relating to this subject matter

	\$7,477 88

### Liabilities

Notes and interest	\$1,901 22
Balance in town for trunk line construction	2,432 82
Balance due from state aid construction	1,672 58
Balance in favor of town	1,471 26
	<hr/>
	\$7,477 88

The balance in favor of town is smaller than in previous years, as we had to appropriate \$1,350.18 to apply to 1917 highway money on account of the unusual amount of road breaking last winter, and we have also put in with the liabilities \$1,672.58 which is due state aid construction and had not been put in the financial statement in previous years.

The total amount available for trunk line construction is \$4,865.64, and for state aid construction is \$2,023.77.

## **FIRE COMMISSIONERS' REPORT.**

---

### **Fire Department.**

The past year has been a fortunate one for the district in regard to loss by fire, we have had only one bell alarm during the year, which was for a fire on the roof of F. W., Brown's house on Emerson street and it was put out with the chemical apparatus. We have answered ten still alarms for chimney fires etc.

We purchased five hundred feet of hose and built a hose drying tower on the Fire Station which we intend to heat by steam from our present heating plant. In conjunction with the Selectmen we sold the old hose house to R. J. McLean for five hundred dollars, three hundred fifty for the district and one hundred fifty for the town..

### **Sewer Department.**

We have extended the Highland St. sewer, which emptied into the moat on the Ward estate, to the Bakers river, a distance of about twelve hundred feet, at a cost of five hundred sixty-one dollars and thirty-seven cents. This with the three hundred forty dollars which we had to pay the Ward estate for damage caused by the Merrill St. sewer in 1917 makes a total of nine hundred one dollars and thirty-seven cents. There was fifteen hundred dollars raised for this work and out of the balance we have paid five hundred dollars on a note held by the bank. We had on hand at the end of the year one hundred forty-five dollars and fifteen cents which will be sufficient for maintenance for the coming year.

Below is a statement of the expenditures for the past year and our estimates of the amounts necessary to maintain both fire and sewer departments for the coming year.

## WATER COMMISSIONERS' REPORT.

---

The past year was one of the most trying and expensive in the history of the water department. Through the effect of lightning, which occurred in July, we were unable to obtain water from either of our reservoirs for about fifty-three days. A large number of breakss in the 8 inch pipe made it necessary to lay in one stretch 1608 feet of pipe. In place of the 8 inch cement pipe was laid a 12 inch iron pipe. Numerous other breaks occurred scattered over the whole system wherever there was any cement pipe. Through the ingenious endeavors of the Foster Bros. and their assistants the superintendent and his assistant, the department was able for the most part to keep the Town supplied with water. These breaks cost the district a little over \$6,500.00. This calamity caused your commissioners and the residents of the town to realize that something must be done to meet future emergencies. It was decided to dig a deeper and larger well, and install a modern and efficient pump. Under the general supervision of E. J. & G. R. Foster, who gave their best thought, energy, and days of their entire time, without any recompense, a well was dug, a pump installed, the description of which is here given.

The new well is located on the eastery side of the land purchased by the district of F. F. Sargent in 1899.

In the construction of the well, an excavation was made over an area of 27 feet square, to a depth of about 8 feet, or to water level, a further excavation was then made of 21 feet square to a depth of 8 feet below the water level.

A round well, having an inside diameter of 13 feet,

was laid up with large field stone, and backed up on the outside with smaller stone and cobbles: this loose stone work, filling the square of 21 feet and extending up to normal water level, and exposing a water-yielding area of some 1100 square feet.

On top of this stone work a six inch cement floor was laid to shut off and deflect all surface water, on this floor was erected a circular well of silo type with 12 inch Portland cement walls reinforced with steel wires spaced 18 in. vertically and 12 in. laterally, this wall extends up to the grade line, and is roofed over with a reinforced concrete top, in which is a man-hole with concrete cover, hermetically sealed.

It was planned to dig this well to the pump suction limit, but owing to the abundant water yield this was not possible or necessary. The steam pump used to remove the water during construction work had a rated capacity of 450 gallons per minute, but the water yield was so much more than the capacity of this pump that the last of the excavation and the first of the stone work was done only with the assistance of the fire truck, and even then it was impossible to remove the last 12 inches of water.

The new pump is a Rumsey Single-Acting Triplex Plunger Power Pump, with a capacity of 400 gallons a minute, run by a 25 H. P. Genereal Electric 3 Phase Induction Motor, which is more than ample for the pump at full capacity.

On account of the condition of the cement water mains the motor is speeded to pump but 200 gallons per minute, by changing one pulley (which we have) an increased speed can be obtained.

The pump house has been enlarged, the old steam pump reset, re-piped, and connected up with the new

pump, so we have two pumps and two different sources of power supply.

New repair parts have been obtained for the old steam pump, and arrangements have been made for the overhauling of it at an early date.

A new 6 inch foot valve has been placed on the suction pipe in the new well and new 5 inch check valves placed on the discharge lines of both pumps to perfect working conditions.

Owing to the intermittant use of the electric current, it was necessary and financially better in the end, for the district to put in and own the transformer, that and other expenses of the Electric Light Co. was \$453.63, making the total expense of well, pump, pump house and equipment, a little over \$6,000.00.

At the precinct meeting your commissioners will be able to give the district definite information regarding the amount of cement pipe remaining in the system.

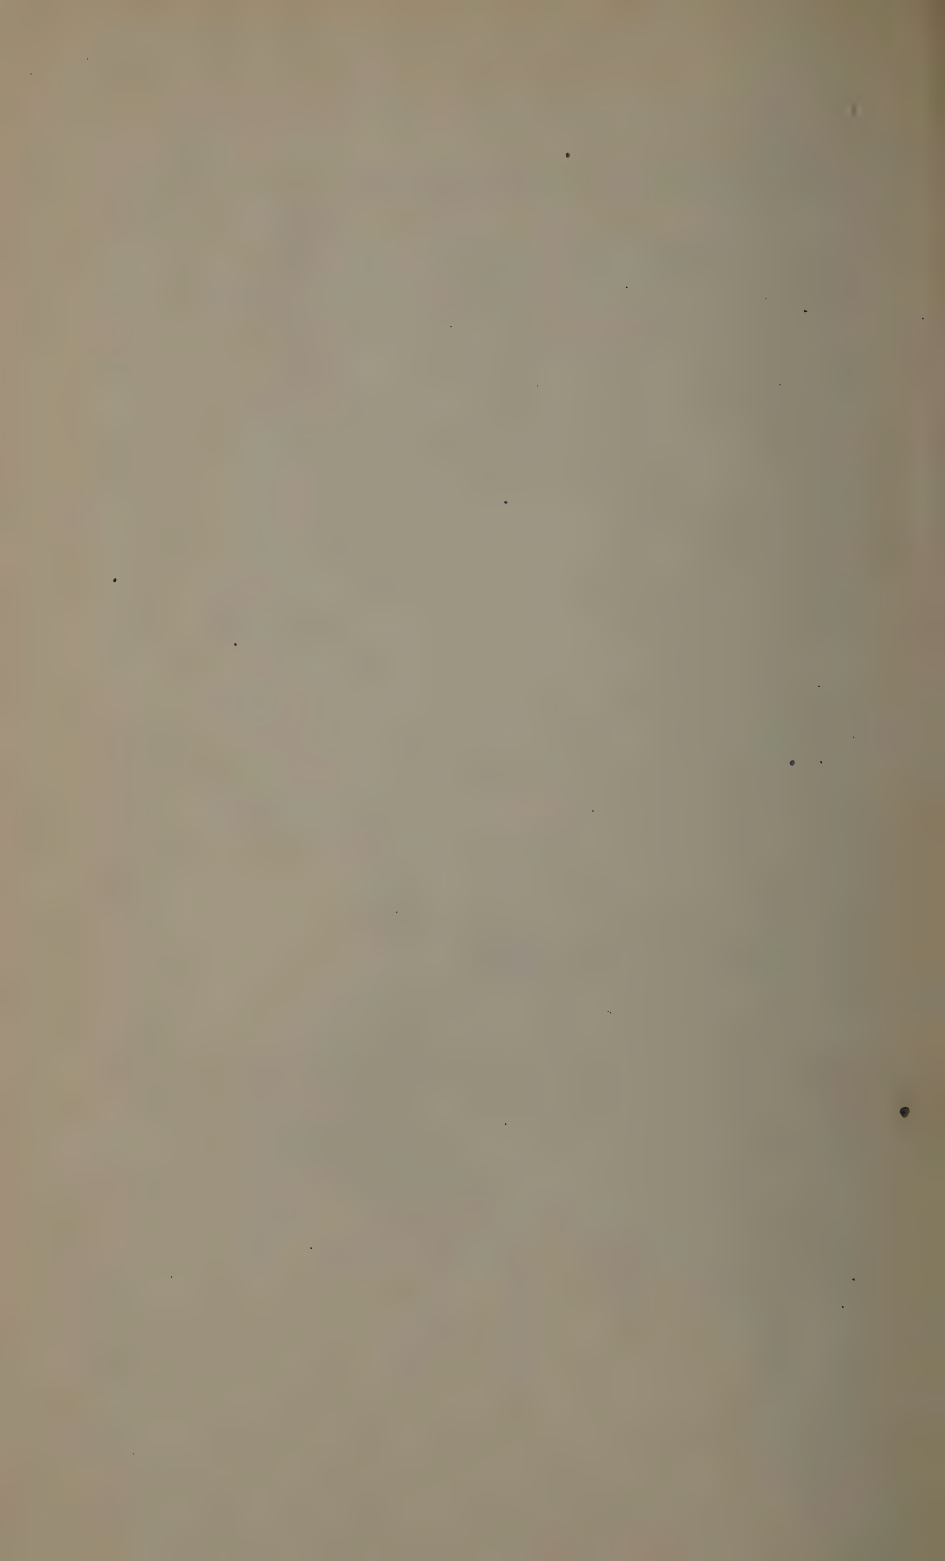

Respectfully submitted,

GEORGE H. BOWLES,  
WM. M. PEPPARD,  
RICHARD J. McLEAN,

Water Commissioners.

## REPORT OF SCHOOL BOARD.

---

The increase in the cost of school supplies of all kinds which was noted in last year's report has continued with, of course, a consequent decrease in the purchasing power of our school money. We have tried to administer the funds as economically as possible without impairing the efficiency of our schools but, as the financial reports show, expenses have far exceeded the estimates.

It has seemed best to publish the list of instructors as it was made up during the school year closing August 31, 1918, as changes are generally made in the summer and instructors are hired for the school year.

Principal Charles L. Wallace, who has been at the head of our high school for many years, resigned to accept a similar position in the city of Dover, N. H. We deeply regret his loss, but feel that we have been very fortunate in securing as his successor Elbert E. Orcutt, formerly of Woodsville high school. Any change in so important a position is an experiment, but as the school year wears on, it is becoming very evident that our expectations were amply justified. The teaching staff of the school has ably seconded the efforts of the new principal and our high school is having a very successful year despite the many handicaps with which the unsettled conditions of the world have made it necessary to contend.

We believe that the teachers in our district schools have kept them up to the usual high standard. It is

very desirable that the parents visit the schools frequently as the demonstration of community interest in the schools stimulates both pupils and teachers. We are sure that the teachers will welcome suggestions and criticism and that all ideas will receive careful consideration even though they may not be adopted.

The usual estimates and the school district warrant must be omitted at this time because of pending legislation. If the educational bill becomes law, the school money will have to be considerably increased and we shall have a superintendent of schools to assist in spending it. The warrant and estimates will be published in the Plymouth Record before the district meeting, which will probably be held about the middle of April.

Respectfully submitted,

WALTER M. FLINT,  
HEBER W. HULL,  
ALBERT L. SMITH,

School Board.
